Mr. B. L. Rice, C.I.E., the Director of Archæology in the Mysore State surveyed the territories of Mysore for collecting inscriptions and published the results in the famous series of the *Epigraphia Carnatica* commencing from the year 1886. The XII volume which was the last containing the inscriptions collected by him was published in 1904 and it was his intention that the XIII volume should contain an Index to the names of persons and places occurring in the series. The preparation of this Index was, however, actually commenced in 1908 under the then head of the department Mr. R. Narasimhacharya. The work which he described as 'a laborious task of great magnitude requiring the co-operation of many hands' assumed a definite shape in 1917 when the draft was completed and the first portion of the manuscript was sent to the Press. Owing to the changes in the staff and the consequent dislocation of work, only pages 1 to 376 consisting of the letters A to K have thus far been printed. Since the printed portion has been waiting in the Press for a very long time, it has now been decided to issue it as Part I of volume XIII of the *Epigraphia Carnatica*. The letters L to the end will form the II Part of this volume.

In the production of a work of this kind many people have co-operated and it is difficult to apportion the responsibility. Special mention may, however, be made of Mr. K. Rama Rao who started the work and Mr. M. C. Srinivasa Iyengar who completed the draft. The department are well aware that in the Index as now compiled many errors have crept in both of omission and also of commission ; but in consultation with Rao Bahadur R. Narasimhacharya under whom the compilation was made and printing begun, the Index as at present is now published, since it would be highly useful for reference purposes to the world of scholars. The remaining portion of the Index is under verification and will be published in due course.
